## To win a race a Jockey doesn't put extra weight on the horse that helps him succeed

No man or woman who wants to succeed in the race of life can afford the handicap of heads hes, insomnia, indigestion and debility. Nor can they off d to take anyth g that may keep up a continual irr tation of the nervous system.

Yet this is what many people do who drink excessive amounts of ten or coffee. For tea and coffee contain caffeine, a substance that is sometimes very injutious. Many doctors say that cufferne tumes the blood pressure, irritates the kidneys, and over-attinulates the entire nervous system. Also that it is especially barl for growing children, or for any one who has any tendency to neryourness or insomnu.

If you want to avoid a pos-

sible cause of headache, insomnu, or nervousness, it might be well to stop taking tenand coffee for awhile, and drink rich, satisfying Postum, instead.
